- Thur. Feb. 20: Drumsticks, Stuffing, Gravy, Pudding
- Fri. Feb. 21: Pizza, Salad, Fresh Fruit

hello

KINDERGARTEN

Last week was Friendship week in 5k!

We played games like Sorry and Jenga! We built friendship towers. We started making Valentines Day cards for next week! We are breaking apart numbers and learning different ways to make 10. We practiced writing our friends names as we asked them if they liked to do certain things! And we talked about what it means to be a good friend. Miss Danielle was our Mystery Reader on Friday!

This week in 2nd grade Science, we have been planning a model build of a cliff house. We researched, planned, tested, made corrections based on the tests and then tested again. We started trying out our best designs and seeing which one would hold up the best against the elements. Wind (fan), rain/ocean (cup of water) and earthquake (shaking the table). This was a fun lesson!

About Me

I am getting married to Zack Muche in March.
We have been together for 6 and a half years.
I love getting to see all of my students grow in their learning
and the staff here is amazing!

Fun Facts about me:

- I studied abroad in Hungary for 4 months
- I grew up in Mayville and was confirmed through St. Mary's
- I love earrings! The more fun and unique the better!

Favorites:

FOOD: Pasta, Reese's PB & apples w/ peanut butter
TV SHOW: 9-1-1
MOVIE: The Odd Life of Timothy Green
BOOK: The Last Letter or any mystery books
VACATION SPOT: anywhere there is water!

CHILD CARE CORNER

The kiddos in Childcare did some sensory activities and enjoyed story time with Miss Julie!!

In honor of last weekend's Super Bowl, the 1st grade students created goal posts during STEAM! They were challenged to use only three items and worked hard to find the best way to flick the "football" through the posts.

St. Mary School second grader Tanner had a Picnic with the Principal on Wednesday, Feb. 12. Mrs. Yauck said that Tanner is such a happy child and had so much to talk about. He told her how he is going to spend a couple of weeks with his Pawpaw this summer in North Carolina, just the two of them. He can't wait to go fishing with him. Tanner talked about these "special" lakes that have a certain kind of fish in them that remind him of a bass only larger, and they are so fun to catch. Tanner told Mrs. Yauck that the rest of the family is going to join them a couple of weeks later and then stop at places to vacation on the way home. They are going to the beach and some water parks. Tanner loves the outdoors and anything to do with hunting. He also likes watching snowmobile races and loves how fast they go. He enjoys playing baseball and said that they have already started practicing for this summer using an indoor shed to practice in.

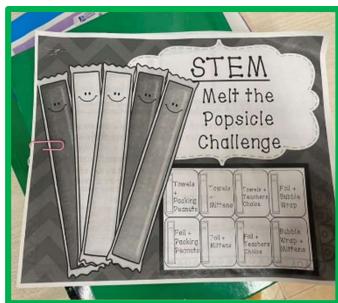

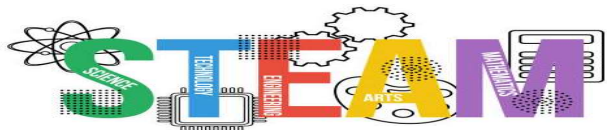

We worked on patterns with candy hearts!

We also celebrated our

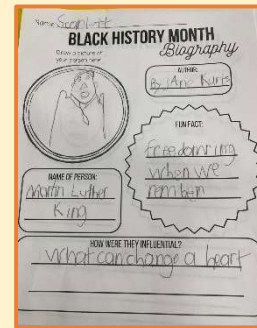

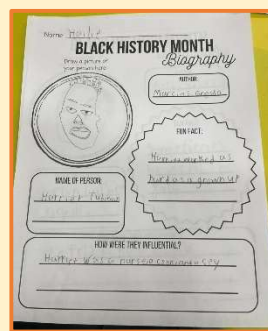

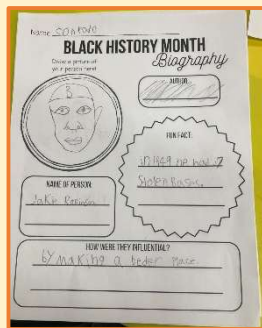

100th Day of School this week!

Go to <https://www.stmarymayville.org/photogalleries> to see all of our 100th Day of School photos!

STEAM in third grade was all about trying to melt a freeze pop. They picked a card and had to wrap their freeze pop in the bubble wrap, foil, mitten, or towel to see if we could insulate or melt it. After an hour all were liquid. Don't wait that long to eat them!

This week in 2nd grade, students read biographies about influential figures in African American history in celebration of Black History Month. Each student chose a person and completed a book report about them. Here are some examples of their wonderful work.

St. Mary School third grader Mia had a Picnic with the Principal on Tuesday, Feb. 11. Mia talked a lot about her dogs and how much she loved/loves them. She had 2 dogs that recently passed away at ages 13 and 14. Mia told Mrs. Yauck that they just got another dog named North that has the same spunky personality as one of her other dogs. She said that she really enjoys being a part of the Scouts program. They do a lot of projects and learn about things like the flag, taking care of yourself, getting along with others, working in groups, and taking care of the Earth. When Mrs. Yauck asked about school she said that she really likes Science because you get to do a lot of experiments. Mia's reading scores have gone up a lot recently. When asked about Reading, she said that she likes to read because you learn new stuff, but that she likes Science much better.
