St. Mary School is rooted in Catholic values and academic excellence. We are committed to providing an environment rich in diversity, inclusion and belonging where children of God learn, love and live the faith.

Mrs. Fehring's 3rd graders and Mrs. Kempke's 3K kiddos got together for Book Buddy time last week Friday!

Kindergarten had another mystery reader! Kelsey read *The Littlest Pumpkin* and even brought in orange cups that looked like pumpkins! Turns out kindergarten just finished learning about Oswald who loves everything that starts with the letter O, so oranges were the perfect snack! Thank you for reading, donating a book, and bringing in a sweet treat!

Please email kolig@stmarymayville.org if you would like to be a mystery reader! Family members, friends, and parish members are all welcome!

It was too hot to go outside for initially planned PE class so inside gym rotating centers it was! Kids stayed relatively cool and enjoyed using all different muscles.

St. Mary School third grader John Yanke had a picnic with the Principal on Tuesday, Sept. 17. Mrs. Yauck said that she was in awe at how much John had grown since last year. John told her how busy he had been over the summer. His family went on many hiking and fishing outings. He played baseball and soccer and spent time with Grandma when his parents had business trips. When Mrs. Yauck asked John if he liked the new playground equipment, he said is it a lot of fun and that he likes helping the little kids learn how to play on it. He added that what would make it better is to add more swings and more places to hide when playing ball tag. She told him she would look into that.

CHILD CARE CORNER

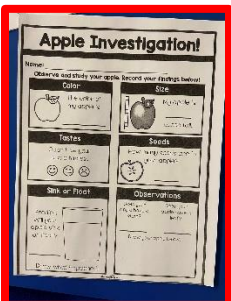

In Childcare we used our hands to learn the seasons. In case you wanted to know, Spring was their favorite because of frogs! On Friday the kiddos learned the first letter of their name. Our toddlers love tunnel time!

Our 2nd graders met with the 5K kids for Book Buddy time!

Last week Friday, the 1st graders investigated apples for STEAM! They chose what kind they wanted (Granny Smith or gala) and then went to work on measuring, observing, predicting, testing out their predictions and tasting. At the end, we created a chart to see whose apple had the most seeds.

In Kindergarten, we have been learning about how God created us. We passed around a special gift, and when they looked inside they saw their reflection! It is important that we remember how special we are since God created us!

The subject of third grade STEAM was force and motion. We had trials with ramps 2 & 4 books high. The majority outcome proved that the steeper the ramp the farther the motion of the toy car!

We made our own Ladybug Garden artwork in childcare this week! What a fun project!
